

Catch the Wave!

a multiple sclerosis (MS)
education & awareness message

"MS is a life-long chronic disease diagnosed primarily in young adults who have a virtually normal life expectancy. Consequently, the economic, social, and medical costs associated with the disease are significant. Estimates place the annual cost of MS in the United States in the billions of dollars." National Institutes of Health

This Our Heart Greeting postcard joins the wave of education & awareness around the world. We encourage you to design, print or buy postcards to mail to friends, family, and colleagues during the month of March.

*Join the Wave of awareness around
the world to Wave good-bye to MS!*

Every Action for MS Leads to a CURE!
